Erasmus+ is the European Union's programme in the fields of Education, Training, Youth and Sport which aims at boosting skills and employability within the youth field as well as modernising Education, Training and Youth systems.

Particularly for the Youth sector, Erasmus + gives the opportunity to young people, informal groups, youth workers and youth organisations, respectively, to:

- travel abroad and participate in Youth Exchange projects, seminars and meetings in European level
- collaborate with organizations based abroad and share good practices
- support new and innovative approaches to education and youth field, and through exchanges and volunteering projects to implement European Voluntary Service
- be part of the European Union, learn about its institutions, be active citizens, thereby improving their skills and key competences and their employment prospects
- contribute to the improvement of the quality of youth work
- reflect on the great topics concerning the daily life of the young generation, and
- discover new cultures and reinforce the European citizen's identity.

There are the following Key Actions:

Key Action 1: Learning mobility of individuals and young people

It includes Youth Exchanges, European Voluntary Service (EVS) and Mobility of people active in the youth field (youth workers).

Key Action 2: Cooperation for innovation and the exchange of good practices which includes Strategic Partnerships in the field of youth

Key Action 3: Support for policy reform. This Action includes Structured Dialogue -Meetings between young people and decision-makers in the field of Youth

Keynote speakers and speeches

"Every euro that we invest in Erasmus+ is an investment in the future — in the future of a young person and of our European idea. I cannot imagine anything more worthy of our investment than these leaders of tomorrow. As we celebrate the 9 millionth people to take part, let's make sure we are 9 times more ambitious with the future of the Erasmus+ programme."

European Commission's president Jean-Claude Juncker

1 Νοεμβρίου 2014 - 30 Νοεμβρίου 2019

"Just as each Erasmus+ exchange delivers an enriching life experience — both professionally and personally — 30 years of mobility and cooperation have given Europe an open-minded and entrepreneurial generation of 9 million people who are today shaping the future of our society. By putting Erasmus+ at their fingertips, the new App will bring Europe closer to young people all over the world."

Tibor Navracsics, Commissioner for Education, Culture, Youth and Sport

The Erasmus+ App is a mobile application for Erasmus+ participants that guides users through their mobility process and constitutes a single point of access to available online tools.

In 2017, the Erasmus Programme celebrated its 30th anniversary and set a significant milestone for Europe's best-known initiative, which already since 2014 brings together multiple programmes in the fields of education, training and youth under the umbrella of Erasmus+. At the same time, last year also marked the 60th anniversary of the Treaty of Rome, offering a perfect opportunity to reflect on the progress achieved through European integration as well as on the future that can be built.

In this framework, the EUF developed a mobile application with the aim to accompany the user from the start of the mobility to the return to their home country. The Erasmus+ App was launched on June 14th 2017, during a 30-year anniversary celebration event held in Strasbourg by the European Commissioner for Education, Culture, Youth and Sport, Mr Tibor Navracsics. In the meantime it has already been downloaded more than 40,000 times.

With a rapidly growing user-base, it proves to be an important point of support for students while offering a simple and powerful tool for HEIs to bring crucial notifications directly to the students' fingertips.

The App in the meantime has experienced constant growth in functionalities and the process will only continue. As of now the Erasmus+ App offers the following features:

- Step-by-Step checklists to guide students through the most important milestones
- Push-notifications with crucial information from home and host higher education institutions
- Updates of the status of Online Learning Agreement

- Useful tips from other Erasmus+ participants and the chance to contribute
- Information on relevant events from local ESN organisations
- A newsfeed and local events and activities
- Connection to OLS
- Structured information on other opportunities available under the Erasmus+ umbrella

The collaborative approach promoted by the European University Foundation and the Erasmus Student Network aims to integrate existing IT infrastructures in the field of learning mobility into the Erasmus+ App, making it as relevant for individual beneficiaries as possible. Work is underway to streamline information and processes, rendering mobility easy and accessible, while promoting innovation and the meaningful digitisation of the Erasmus programme.
